

# AKASH S

## Full Stack Developer

akashprofess10@gmail.com | LinkedIn | GitHub | **Phone: +91 8220465332** |

---

## Summary

Dedicated Computer Science undergraduate with hands-on experience in software development, particularly in Java . Developed multiple projects, including a responsive portfolio website , demonstrating strong web development and application design skills. Passionate about technology, problem-solving, and continuous learning.

---

## Education

**Bachelor of Computer Science and Engineering** (06/2022 - 08/2026)  
KPR Institute of Engineering and Technology, Coimbatore, India  
Relevant Coursework: Data Structures, Operating Systems, Database Management, Software Engineering  
CGPA: 7.5/10

**Higher secondary school** (06/2018 - 08/2020)  
Universal Matriculation Higher Secondary school,Tirpur, India  
Percentage: 82%

---

## Technical Skills

- Programming: Java, Python
  - Web Development: HTML, CSS, JavaScript,React.Js
  - Back End:Spring Boot
  - Data Base:mysql
  - Tools: Android Studio, Eclipse, GitHub, Visual Studio Code,cisco packet Tracer
  - Concepts: Data Structures, Algorithms, Object-Oriented Programming (OOP)
- 

## Coursework

- Data Structures and Algorithms
  - Operating Systems
  - Database Management Systems
  - Computer Networks
  - Software Engineering
  - Web Development
-

## Projects

### **online book shop**

(12/2023 - 02/2024)

Developed a full-featured online book shop using CRUD (Create, Read, Update, Delete) operations. Implemented functionalities for users to browse, add, update, and delete books. Integrated a database to manage book inventory efficiently. Designed a user-friendly interface with secure authentication and validation. Technologies used: [mention languages/frameworks like Java, MySQL, Spring Boot etc.].

- Created wireframes, prototypes, and interactive components to enhance user experience.
- Ensured a visually appealing and functional layout aligned with modern design principles.

### **Portfolio Website**

(09/2024 - 15/2025)

A responsive portfolio website to showcase technical expertise.

- Built using React, Tailwind.
- Integrated with GitHub to display real-time project showcases.

### **Web page-food hub**

(07/2023 - 08/2024)

Developed a responsive food ordering website using HTML, CSS, and Bootstrap. Designed an intuitive UI with a modern, mobile-friendly layout. Implemented features like a static menu, category-based food filtering, and a visually appealing landing page.

- Used Bootstrap for styling and responsiveness, ensuring a seamless user experience across devices.
- Ensures a seamless and engaging user experience across devices.

---

## Publications and Articles

- Published a guide on developing a Portfolio Website, increasing engagement by 60%.
- published a guide on developing a online book shop ,User account creation, modification, and deletion by 50%.

---

## Certifications and Awards

- Full Stack Development – Appin Technologies Internship.
- AWS ( basic of cloud)- SpotKnack.
- IEEE certificate - "version control of git and github"
- TECH FEST EVENT- DEBUGGING in Java(1st prize).
